Supplement Facts

Serving Size: 2 ml

Servings per Container: 30

	Amount per Serving	%DV**
Calories	5	
Toyo-FVG™	70mg	*
AIMix Sorb™	40mg	*

Proprietary Blend of

SunSea Mineral (Ionized Coral Mineral from Japan)

Nuti-Masu (Sea-salt Mineral Complex from Japan)

Sunfiber R™ (Galactomannan: Partially Hydrolyzed Guar Gum)

*Percent daily value not established

**Percent daily values are based on a 2,000 calorie diet

Other Ingredients: XyliSorb 300, Lycasin 80/55, Purified Water, Wild Blueberry Juice, Blackcurrant Juice, Natural Flavors

Direction: As a dietary supplement, take 2 ml a day.

Dose: 2ml/day.

Shake well before use.

Store in cool and dry place.

Shelf life: 18 months.

Consume in one month after opening the pack.

Warning: Consult your doctor or health care professional. Keep out of reach of children. Do not use if you are pregnant, nursing or have a medical condition.

AIMix Sorb™ is a trademark of Aim Pharmakon, Inc., USA

Toyo-FVG™ is a trademark of Toyo Bio-pharma (a company of Toyo Shinyaku Co. Ltd., Japan)

SunSea Mineral is a trademark of Coral International Co. Ltd., Japan

Nuti-Masu is a trademark of Nuti-Masu, Japan

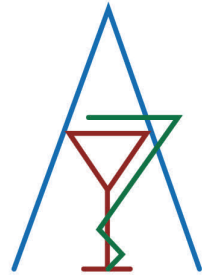

Sunfiber R™ is a trademarks of Taiyo International, Inc., USA

XyliSorb 300 and Lycasin 80/55 are the trademarks of Roquette, USA

- ◆ Highly bioavailable actives along with other natural micronutrients present in the formulation of liquid matrix
- ◆ Pleasant palatability liquid matrix with no untoward after-taste
- ◆ Composition of premium, high quality, clinically proven ingredients
- ◆ Easy-to-take formulation and convenient packaging

This is a completely natural product. It contains no preservatives or artificial colors. Glass packaging extends natural freshness and helps maintain potency.

Salient features

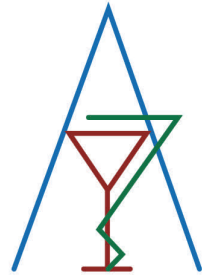

- Toyo-FVG from JAPAN
- Superoxide Elimination Activity (Units/g) for Toyo FVG: 2.6×10^5 (Japan Food Research Laboratory)
- Exceptionally high ORAC H Rate: 12,784 ($\mu\text{moleTE/g}$)
- Gamut of trace-minerals from premium, natural sources
- Low sodium-content Nuti-Masu sea-mineral complex from JAPAN
- Unique matrix of natural sweeteners and juices
- Natural additives with pleasant taste
- Holistically balanced liquid concentrate
- High total polyphenol content: >80%

Beneficial effects*

- ◆ Improvement in peripheral circulation through the vasodilating effect of OPCs
- ◆ Enhanced absorbability of **Toyo-FVG™** due to highly ionized coral mineral complex
- ◆ Increased soluble fiber content for healthy cholesterol level maintenance
- ◆ Supports in microvascular disorders, peripheral chronic venous insufficiency
- ◆ pH-balanced formulation for optimum stability
- ◆ Low glycemic index of the formulation
- ◆ Contribution in the modulation of blood pressure
- ◆ Neutralize toxic free-radicals
- ◆ Strengthen entire circulatory system

- Toyo Shinyaku Co. Ltd., Japan, is the parent company of Toyo Bio-Pharma, USA
- Human clinical studies demonstrate that **Toyo-FVG™** prevents oxidative stress of DNA. The biomarker 8-hydroxy-2-deoxyguanosine (8-OHdG) is an oxidized metabolite of deoxyguanosine excreted after digestion of DNA repairing enzyme. Measurement of 8-OHdG is an effective method in determining the oxidative stress at DNA level. Decrease in 8-OHdG concentration by Toyo-FVG™ indicated that it possessed inhibitory effect on the oxidative damage of DNA
- Reported effects of **Toyo-FVG™**: Reduces serum lipid level, moderates cholesterol and lowers bad cholesterol
- Fundamental to all health and vitality, cardiovascular health is improved substantially through the use of **Toyo-FVG™**
- Human and animal studies support the evidence of impact of **Toyo-FVG™** on reduction on idiopathic swelling, improved microcirculation, rapid athletic recovery and decreased hypertension
- Regular intake of **Toyo-FVG™** may help to improved myocardial microcirculation
- Toyo Bio-Pharma developed **Toyo-FVG™** that is a patented and proprietary extract from the French maritime pine bark
- Premium quality **Toyo-FVG™** is comprised of Oligomeric Proanthocyanidins (OPCs)
- **Toyo-FVG™** improves stamina and energy level. By neutralizing free radicals– the by-product of cell metabolism, stress, busy lifestyle choices– it can support the entire circulatory system and rejuvenate overall health
- Improved peripheral blood mobility after the regular intake of **Toyo-FVG™**.
- Decrease in lactic acid values, suppression of muscle damage and an increase in blood mobility all indicate that **Toyo-FVG™** possesses great capability for athletic recovery after extended exertion

AIM Pharmakon
Incorporated

Formulating Innovation

SunSea Mineral (Ionized Coral Mineral from JAPAN) is a highly ionized coral mineral complex with deep-sea water from Japan. SunSea Mineral yields broad spectra of elemental profile of various essential minerals. Aim Pharmakon has incorporated this premium quality, exclusive ingredient from Japan in the formulation.

Nuti-Masu (Sea-salt Mineral Complex from JAPAN) is a premium quality sea-salt complex harvested from pacific ocean waters near pristine island-coast in Japan. Nuti-Masu has unparalleled low sodium content and right proportion of calcium, magnesium and other elements, including trace minerals. Nuti-Masu obtained from patented *Green-house* process. Guinness Book of World Record Gold medal recipient. Aim Pharmakon incorporates this exclusive ingredient from Japan in the formulation.

Sunfiber R™ (Galactomannan, which is a Partially Hydrolyzed Guar Gum) is among the most adaptable dietary fiber and delivers high fiber content. It is clinically proven to lower glycemic index and improve mineral absorption.

Blackcurrant is loaded with flavonol glycosides and anthocyanins with pronounced anti-oxidant activity. Anthocyanins facilitate the regeneration of rhodopsin, thereby improve vision in poor light. Blackcurrant is rich in vitamin C and minerals and also exhibits anti-viral activity.

Wild Blueberry has high cellular antioxidant activity (free-radical scavenging ability). Oxidative stress is linked to chronic diseases and aging. Anti-oxidants have been linked with anti-aging and cardiac-health benefits.

Supports Overall Cardiovascular Health*

The presence of soluble fiber enhances the absorption of wide spectrum of minerals in the formulation. High-mineral content, in turn, potentiates the absorption of **Toyo-FVG™** for cardiovascular benefits. The synergistic balance of mineral and fiber helps achieve the optimum cardiovascular health advantages with regular diet and exercise.
